

Business Question and Visualization Report

Date	06 September 2026
Team ID	
Project Name	India's Agricultural Crop Production Analysis
Maximum Marks	5 Marks

Visualization development refers to the process of creating graphical representations of data to facilitate understanding, analysis, and decision-making. The goal is to transform complex datasets into visual formats that are easy to interpret, enabling users to gain insights and make informed decisions. Visualization development involves selecting appropriate visual elements, designing layouts, and using interactive features to enhance the user experience. This process is commonly associated with data visualization tools and platforms, and it plays a crucial role in business intelligence, analytics, and reporting.

Business Questions and Visualisation

The process involves defining specific business questions to guide the creation of meaningful and actionable visualizations in Tableau. Well-framed questions help in identifying key metrics, selecting relevant data, and building visualisation that provide insights.

Sample

1. What are agriculture yield trends over the years?

- *Visualization:* Line chart showing yearly agriculture yield trends.
- *Screenshot of visualisation*

2. Which states have the highest production?

- *Visualization:* Filled map of India of agriculture distribution state-wise.
- *Screenshot of visualisation*

3. Which crops are most produced across India?

- *Visualization:* Bar chart showing top crops by area.
- *Screenshot of visualisation*

4. How does the agriculture production of Uttar Pradesh look like?

- *Visualization:* Bar chart showing average production in UP across years.

○ Screenshot of visualization:

5. How much cultivable land is available in India?

○ Visualization: A bar chart showing the states by cultivable area.

○ Screenshot of visualization:

6. Which states do have the highest agricultural production?

○ Visualization: A bar chart showing topmost states by agriculture production.

- Screenshot of visualization:

7. What is the agriculture production in every season of year?

- Visualization: A pie-chart showing

season-wise agriculture production.

- Screenshot of visualization:

8. Which are the top yielding crops across India?

- Visualization: A bar chart showing top crops by yield.
